È la ricerca il dettaglio in più

Lo studio degli interni è da sempre un campo di sperimentazione, invenzione e immaginazione di forme, stili, decori, materiali e colori.

Research is that something more.

Interior design has always been a field of experimentation, invention and imagination of shapes, styles, decorations, materials and colours.

Исследования представляют собой отличительную деталь.

Дизайн интерьера – это область, для которой характерно экспериментирование, изобретение и представление форм, стилей, декоров, материалов и цветов.

Royal Grey suede

Per ottimizzare la palette di colori della categoria “Suede” è stato introdotto il raffinato color Royal Grey. Colore solido che spazia da un delicato e caldo grigio tortora coffee a un fresco e saturo grigio cemento deep. Un colore il cui tono varia prepotentemente in base all'esposizione e all'intensità della luce.

We have introduced the elegant colour of Royal Grey to enhance the “Suede” category colour range. This year's featured colour is very solid – ranging in tone from a warm, delicate hue of dove grey-coffee to a fresh, dense shade of deep cement grey – that changes tones boldly with different light intensity and exposure angles.

Для совершенствования цветовой гаммы категории “Suede” был предложен изысканный цвет Royal Grey. Это цвет, характеризующийся особой глубиной и включающий от мягкого и теплого серо-бежевого оттенка до свежего и насыщенного цементного. Его тон властно меняется в зависимости от воздействия и интенсивности света.
